WHAT IS EXILIS?

NON-INVASIVE TREATMENT SYSTEM FOR THE REDUCTION OF TARGETED FAT DEPOSITS AND SKIN TIGHTENING

WHAT EXILIS DOES

- ◇ Utilizes revolutionary new platform to reduce fat and contour the body
- ◇ Results in marked improvement in cellulite reduction, skin tightness, tone and elasticity.
- ◇ Reduces wrinkles and rejuvenates face with supplemental anti-aging effects
- ◇ Ensures maximum safety and user-control via innovative hand-piece design

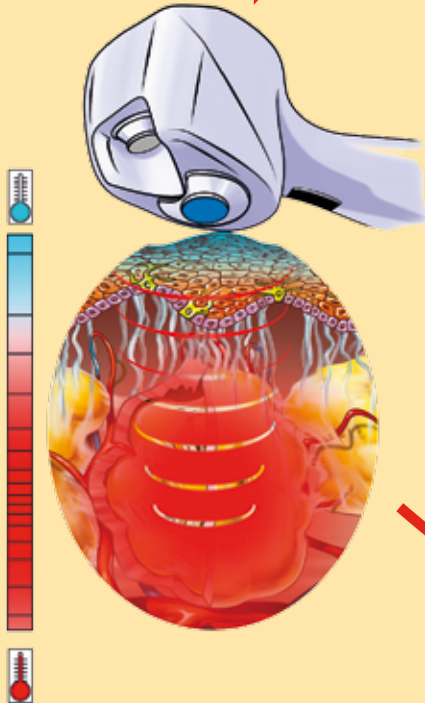

BODY CONTOURING WITH R.I.D. TECHNOLOGY

BTL's **Exilis** is a significant technological advance in aesthetic treatments. Exilis helps people get **RID** of excess body fat in just three simple steps:

REACH → **ISOLATE** → **DEACTIVATE**

BEFORE

REACH

Mechanical effects of ultrasound energy allow access and treatment of previously resistant tissue. EXILIS precisely targets deeper fat layers, while contact cooling of the surface regulates the temperature of the skin and protects fine dermal structures.

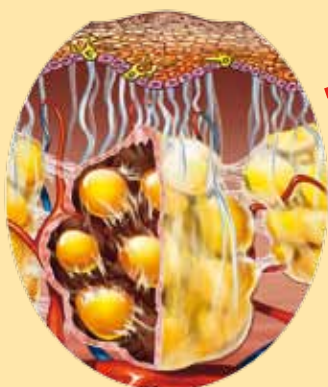

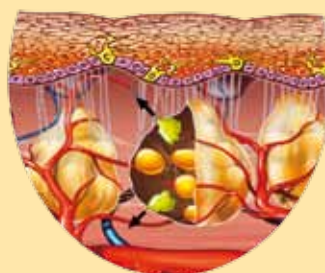

- ◇ The only device that delivers both **ultrasonic waves and controlled heating to the tissue**
- ◇ Revolutionary medical effect of combined mechanical action and uniform molecule excitation
- ◇ Precisely **targeted, most effective and rapid contouring solution**
- ◇ **Unique safety features**

AFTER

DEACTIVATE

As part of the process, mechanical waves help to open up fibrotic fat structures, causing the separation of the fat-cell defensive formation into individual units. The exposed fat cells are then more isolated and responsive to treatment.

ISOLATE

High-frequency energy causes targeted deep thermal heating. Metabolic activity is initiated and the local fat tissue lipolysis process is accelerated. Fat cell volume decreases and the fat layer is reduced.

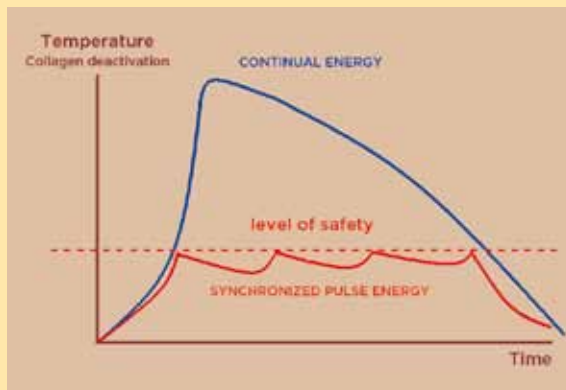

CRT FACIAL REJUVENATION

COLLAGEN REFILL TECHNOLOGY

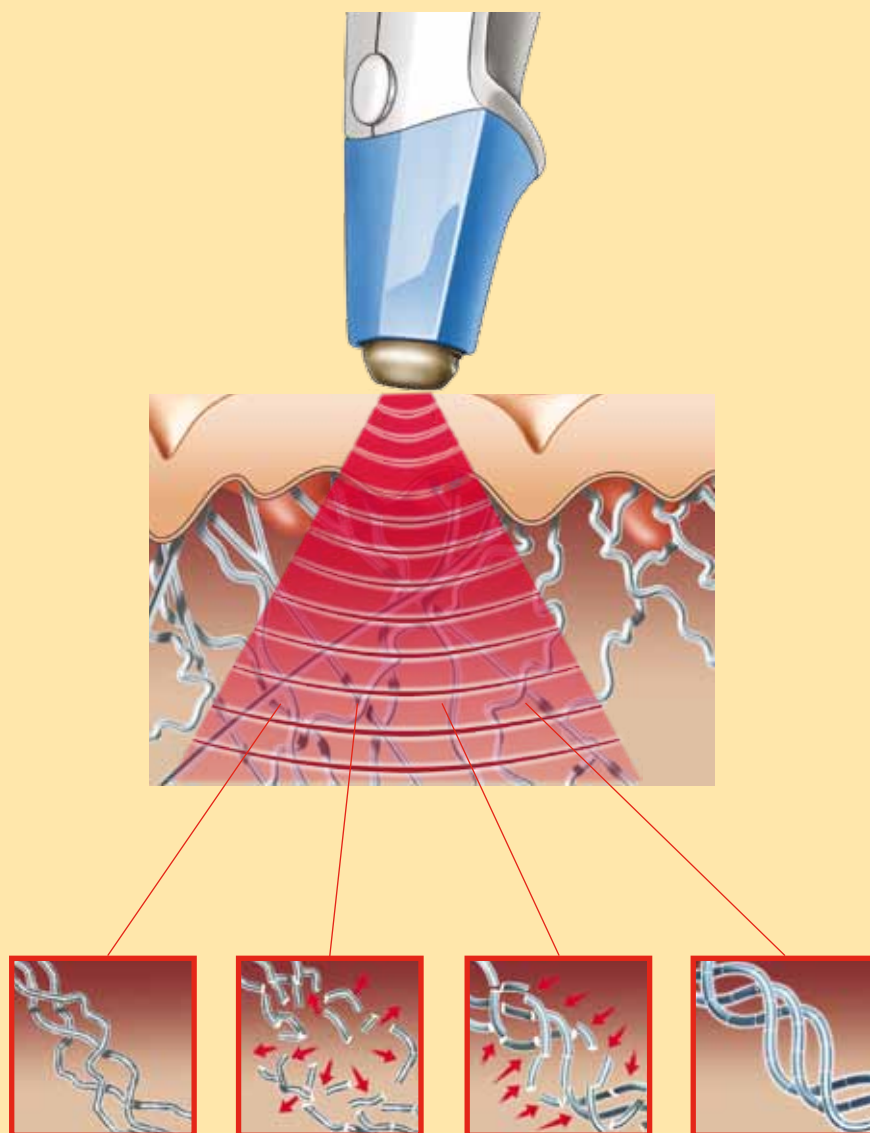

- ◇ Collagen rejuvenation through a **patented** system of **dual energy exposure**
- ◇ Dramatic improvement of **skin density and dermal thickening** based on neocollagenesis
- ◇ Treatment is not chromophore dependent and is available for all skin types

CONTROLLED ENERGY DELIVERY

- ◇ **Synchronized pulse energy** delivery enables the precise dose of superficial heating
- ◇ Dual energy pulse for **ultimate effectiveness**
- ◇ Only a **fraction of energy** is needed when compared to existing technologies
- ◇ **No cooling** required
- ◇ **Fast and comfortable** treatment

HOW CRT WORKS:

- ◇ The collagen fibers triple-helix structure is affected by heat. This initiates the **unravelling process**.
- ◇ The ultrasound waves **mechanically disrupt** the collagen fibers
- ◇ The combination of energies quickly and efficiently **dissociates the collagen structure**
- ◇ The natural healing process evokes the fibroblasts to produce **new collagen fibers**
- ◇ The skin structure is refilled with **new collagen**

UNIQUE SAFETY FEATURES

EFC - Energy Flow Control System

Temperature monitoring

- ◇ Superficial skin temperature displayed at all times on applicator's easy-to-read screen
- ◇ Homogenous energy distribution

Controlled energy delivery

- ◇ Output power adjustable on the applicator
- ◇ Embedded skin contact quality check
- ◇ Automatic output power regulation
- ◇ More efficient results

No risk of over treatment

EXCELLENT RESULTS

after 4 Tx

EFFECTS:

- ◇ Fat volume reduction
- ◇ Cellulite reduction
- ◇ Skin tightening
- ◇ Skin texture improvement

EFFECTS:

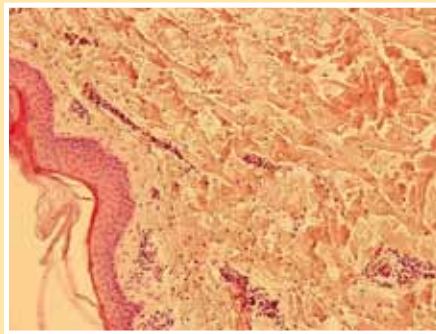

- ◇ Wrinkle reduction
- ◇ Skin tightening and anti-aging effects
- ◇ Smoother and younger looking skin
- ◇ Enhanced collagen production

CLINICALLY TESTED

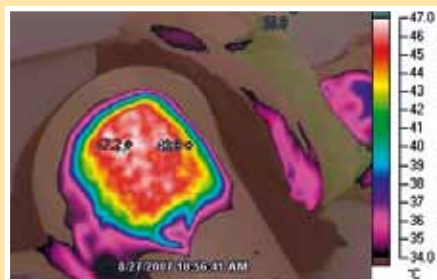

PREVAS laser system - 3D volume reduction screening

- ◇ Supported by extensive research
- ◇ No harm to body organs proven by biochemical testing
- ◇ Clinically tested both in vivo and in vitro

Histology - Areolar connective tissue

Post procedure thermography scan

UNRIVALLED ADVANTAGES

- ◇ **The fastest and most powerful treatment system on the market**
- ◇ No disposables
- ◇ State-of-the-art safety control systems DTC and EFC incorporated in the ergonomic hand-piece
- ◇ Easy-to-use touch screen interface with preset parameters
- ◇ Expandable software system allows growth as the needs of your practice change

CLIENT SATISFACTION GUARANTEED

- ◇ No pain / no anaesthesia
- ◇ No surgery
- ◇ No downtime
- ◇ Very fast treatment
- ◇ Progressive, lasting and measurable results
- ◇ Best results obtained after four (4) sessions
- ◇ Multiple effects evenly spread
- ◇ Body and face solutions

OWNER'S BENEFITS

- ◇ Significant minimally-invasive body modification has never been so affordable for your clients
- ◇ Innovative treatment modality
- ◇ Short treatment time means you have time for more procedures
- ◇ Treatment can be delegated to trained personnel
- ◇ Rapid return on investment
